

SFB860 Symposium
Dec 04-05th, 2019

Molecular Functions and Regulation of Helicases

Max Planck Institute for Biophysical Chemistry
Am Faßberg 11, 37077 Göttingen, Germany

Registration Deadline

31st Oct 2019

Invited Speakers

Katherine Bohnsack
Department of Molecular Biology
University of Göttingen

Franziska Boneberg
Department of Biochemistry
University of Zürich

Clément Charenton
MRC Laboratory of Molecular Biology
University of Cambridge

Vincent Croquette
École supérieure de physique et de chimie industrielles (ESPCI)
de la ville de Paris

Utz Fischer
Department of Biochemistry
University of Würzburg

Anthony Henras
Laboratory of Biologie Moléculaire Eurcaryote
Université Toulouse III

Eckhard Jankowsky
Department of Biochemistry and Center for RNA Molecular Biology
Case Western Reserve University Cleveland

Stefanie Jonas
Institute of Molecular Biology and Biophysics
ETH Zürich

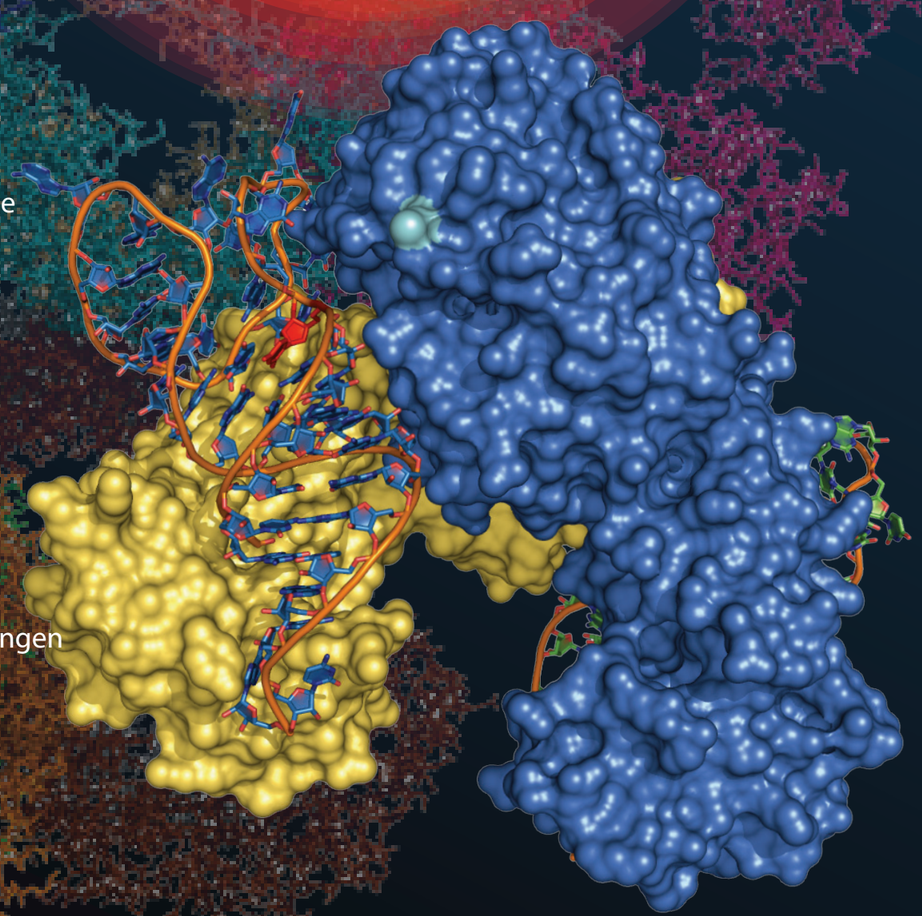

Caroline Kisker
Rudolf Virchow Center for Experimental Biomedicine
University of Würzburg

Dagmar Klostermeier
Institute for Physical Chemistry
University of Münster

Hervé Le Hir
Institut de Biologie de
l'École Normale Supérieure Paris

Reinhard Lührmann
Department of Cellular Biochemistry
Max Planck Institute for Biophysical Chemistry Göttingen

Karsten Weis
Institute of Biochemistry
ETH Zürich
